

Energy Retrofit

More efficiency at reduced energy demand

The Product

- Energy Retrofit
Holistic optimization
program of for your Gehring
machine
- Analysis and conversion by
qualified Gehring personnel
- Proven energy efficient
components
- The basic level is control
optimization
- Energy Retrofit stroke is the
optimal addition"

The Benefits

- Reduction in energy use
- Reduced wear because of
intelligent shutdown
- Elimination of hydraulic
actuators
- Optimized energy
management
- Upgradable anytime
- Higher stroke speed
- More output per KW/h

Our Offer

- Analysis at a fixed price
- Tailored controls
optimization
- Electromechanical stroke
with high speed and reduced
energy use
- The optimal solution for your
needs
